

ANOTHER MOB ACT AS JUDGE

Scottsville, Alabama, the Scene of Jail-Breaking Early This Morning.

SHERIFF WOUNDED

He Was Shot Down While Trying To Defend His Prisoner from Fury of the Crowd.

(Special by Scripps-McLae.) Chattanooga, Tenn., June 30.—A mob stormed the jail at Scottsville, Alabama at one o'clock this morning and after shooting the sheriff down took a negro named Andy Diggs from his cell and hurried him off to the woods.

Another Assault Diggs was being held on the charge of having committed an assault upon a white girl and the mob had been expected by the sheriff who had determined to resist their efforts to take him from the jail. He is badly hurt.

Probably Hanged While nothing definite is known, it is thought that Diggs was hung by the mob in the woods. None of the members of Judge Lynch's court have returned to the city so particulars are lacking as to the manner of his death.

SERBIAN ARMY IS MUCH BROKEN

Wholesale Suicides Reported as Results of Royal Assassinations.

Vienna, June 30.—Remorse has overtaken some of the Serbian officers who participated in the recent royal murders. Rumors of wholesale suicides have reached this city from Belgrade.

It is said that there is a serious cleavage of opinion in the army and that many duels are imminent between the leading conspirators and the officers of the provincial garrisons who condemn the palace massacre.

It is thought that these reports are exaggerated, but it is certain that a reaction is taking place against the souls of the weaker assassins and driving many to despair. It is reported that the life of Col. Maschin, the leading murderer, is menaced and that he is considering the advisability of leaving Serbia for a few months.

King Peter is encouraging festivities and holding levees to banish the reflections which are reported to haunt the public conscience.

KILLING ALL THE RESISTING REBELS

Viceroy of Kwang-Si Province in China Shows No Mercy to Any One.

Washington, June 30.—The state department has received the following cablegram from United States Consul McWade at Canton: "Viceroy Then is conducting a war of extermination against the alleged rebels in Kwang-Si, with Wu Chow as his temporary headquarters. Disturbers will receive no mercy."

BEEF TRUST NOW FACES ACTUAL COMPETITION

United States Packing Company Proposes to Build Big Plant at Kansas City, Mo.

Kansas City, Mo., June 30.—Agents of the United States Packing company, organized under the laws of Colorado in October, 1902, to compete with the beef trust, have arrived in Kansas City to consider the question of establishing a \$1,000,000 packing plant here. According to Charles F. Martin, secretary of the company, \$1,750,000 has been subscribed. James H. Peabody, governor of Colorado, is president of the company, which sprang from agitation started at the convention of the National Live Stock association last January, when John W. Springer, president of the association, said that if the packing companies merged an independent company would be organized.

"We have worked quietly in the organization of the new company," said John Dickey, the general manager of the new concern, "and now we have it on a firm basis. Much of the \$1,750,000 secured is from small investors. Many of the wealthiest stockmen of the West and Southwest are in the concern. I have just returned from the East, where we have interested many of the small retailers and also labor unions.

"One labor union in the East subscribed for \$26,000 worth of stock. Thus we have with us the cattleman, who produce the stock, and the retailers and consumers."

EMPEROR IS TO GO TO NORWAY

Nohus, His Old Pilot, Will Guide the Vessel Through the Fjords.

Kiel, June 30.—The kaiser has decided to start for Norway on board the Hohenzollern immediately after the departure of the American squadron. He has already communicated with his usual Norwegian pilot, Nordhus, to find out whether the imperial yacht with its escorting vessels without risk may penetrate into the fjords of the country. Nordhus, who is known all over Norway as the "kaiser's pilot," is a native of Drontheim, and has piloted the Hohenzollern on its every trip since the kaiser paid his first visit to Norway.

BIG VOLUNTEER ARMY TO BE BROUGHT TOGETHER SOON

State Troops from Illinois, Wisconsin, Kentucky, Indiana, Ohio, Michigan and Tennessee.

(Special by Scripps-McLae.) Chicago, June 30.—It is announced through the officers of the adjutant general that important maneuvers for state troops will be held at West Point, Kentucky, in October. It is expected that eight thousand troops from Ohio, Indiana, Kentucky, Tennessee, Michigan, Illinois and Wisconsin will take part.

SHAMROCKS RACING THIS AFTERNOON OFF HIGHLANDS

Boats Made an Early Start and the Contest Will Be Most Stubbornly Fought.

(Special by Scripps-McLae.) Highlands, N. J., June 30.—The crews of Sir Thomas Lipton's challengers were at work early making ready for the races which are to occur today. The Reliance's remarkable performance of yesterday has somewhat dampened the ardor of the owner, Sir Thomas, but he still expects to win.

INJUNCTION TIES UP ILLINOIS CANAL FUNDS

Judge Thompson Grants Petition of Representative Burke Restraining the State Treasurer.

Springfield, June 30.—Judge Owen P. Thompson of Jacksonville, sitting in the Sangamon Circuit court, has issued the temporary injunction prayed for by Representative R. E. Burke of Chicago, restraining the state treasurer and auditor from turning over to the commissioners of the Illinois and Michigan canal the money appropriated by the last general assembly for the canal.

The withholding of the appropriation will likely necessitate the closing of the canal. Commissioner Salvo, in an interview preceding the issuing of the injunction, stated indeed that it would be necessary to do so should the writ be issued. Just before Judge Thompson's decision was announced the commissioner left for his home in Canton.

According to statements made by Salvo the commission is without funds to keep the canal open after July 1. It is probable that several months will elapse before the case goes through the higher courts and is finally decided.

REMARKABLE ESCAPE

Colorado Springs, Colo., June 30.—Cyrus Estill fell with his pony thirty feet over a ledge of rock and escaped unhurt, while the horse plunged 160 feet to the bottom of the chasm and was dashed to pieces.

SPARKS FROM THE WIRES

Twenty-three persons have been injured, two of whom are likely to die as the result of an elevator accident at Pittsburg.

Fire was started in a Peoria millinery store by the sun's rays being concentrated by a skylight. The skylight acted as a burning glass. Considerable stock was burned.

The heavy rainfall in the northwest has broken the drought and insures a bumper wheat crop.

President Curran has interfered in the settlement of the Alton freight handlers' trouble and has balked peace plans.

The Chicago city council has passed an ordinance which contains stringent regulation for securing purity of the city's milk supply.

A strike of 2,500 employees of the Chicago Manufacturers' Woodworkers association is likely to take place this week.

More than ten thousand Christian Scientists made a pilgrimage from Boston to Mrs. Eddy's home at Concord, where she addressed them.

Admiral Evans fears an uprising in China and has asked that an adequate force of marines be stationed at danger points.

Lord Mayor Samuel of London has said that it is useless for the Jews to hope to influence Russia by agitation.

The winding up of the Pennsylvania loan is expected to have a favorable influence on the money market.

"Lord" Barrington, who was identified by the Bertillon system as an English crook has been accused of murdering an English army officer, and has admitted being with the murdered man on the night of the latter's disappearance.

The United States cruiser, Chicago, sailing out of the San Francisco launch won in a competition with the boats of the German navy off Kiel.

TRIAL RACES HELD TODAY

Reliance, Constitution and Columbia Are Making Their Second Trip To Choose Defender.

FOUR MORE RACES

The Best Boat of the Three Will Meet Lipton's New Shamrock Third.

(Special by Scripps-McLae.) Newport, R. I., June 30.—The Reliance Constitution and Columbia started this morning on the second race of a series of six to determine which boat shall defend Americas cup in the races with the Shamrock Third.

Moderate Breeze There is a moderate breeze blowing and the good sea is running. It is expected that fairly good time will be made and that the boats will finish within the time limit as the wind, while light, is a steady one.

Reliance Best Thus far the Reliance has shown the best speed, but many builders are disappointed at the result of yesterday's race when the Columbia really carried off the honors and was only just beaten by a narrow margin.

CONFERENCE ON EASTERN PROBLEM

Russian Minister to China Suddenly Summoned to Meet High Officials.

Peking, June 30.—The Russian minister, M. Lessar, has been suddenly summoned to a conference with Gen. Kuropatkin, the Russian war minister; Admiral Alexieff, in command of the Russian fleet in the Pacific; M. Pokotiloff, manager of the Russo-Chinese bank at Peking, and other officers at Port Arthur regarding Russia's position in Manchuria. M. Lessar leaves here July 1.

DAMAGE LIGHT TO KANSAS WHEAT

In Spite of the Flood, There is a Large Acreage in Excellent Condition.

Topeka, Kas., June 30.—The Kansas board of agriculture today issued the delayed report of the wheat crop in this state, showing that 321,937 acres were destroyed by the flood, or 5 4-10 per cent of the acreage sown. The 5,709,408 acres out of reach of the high water was 89 per cent, calling 100 perfect condition. This is a 10 per cent. heavier acreage and 7 per cent. better condition than in 1901, when the yield was 90,000,000 bushels, the greatest in the state's history.

BRITISH COTTON FAMINE LIKELY

Closing of the Lancashire Mills Expected to Lead to Bad Situation.

London, June 30.—The majority of the cotton mills in south Lancashire which closed on Saturday recognized that the move may lead to the greatest cotton famine in Lancashire in a generation. The situation is largely due to the multiplication of mills in recent years. The system of raising capital for the establishment of new mills is a bad one, as three-quarters of the money generally comes from mortgages. The result is the mill owners are not able to face a situation like the present one with confidence. The members of the Manchester cotton exchange discredited the report of the formation of a cotton trust, and it is generally declared such a combination is impossible.

Russians Invade Korea. Yokohama, June 30.—A dispatch from Seoul, capital of Korea, states that 150 Russian soldiers have crossed the river and are now stationed at two points on the Korean side.

Falls From Balloon

Vienna, June 30.—An American named Stevens fell from a considerable height while making a balloon ascension at Lelbach. It is feared his injuries will prove fatal.

Prince to Sell Home

Stockholm, June 30.—The Crown Prince of Sweden, presumably under financial pressure, wants to sell his ancestral palace at Stockholm, to be used as a private bank.

French Held for Ransom

Las Palmas, June 30.—M. Jacques Lobaudy returned here from Troy, without five men, who were captured by the Moors, who demand a ransom for them.

SULTAN'S PLAN FOR A THRONE

Would See Milan's Sons, Instead of Peter, the Ruler of Servian Kingdom.

HE ASKS FOR AID

Wants Russia and Austria To Aid Him in Carrying Out President Plan.

(Special by Scripps-McLae.) Constantinople, June 30.—It is alleged here that Turkey is trying by diplomatic means to have the selection of King Peter of Servia declared illegal and King Milan's son placed upon the throne. Russian and Austria have been approached.

Not An Heir The young Prince is not, strictly speaking, a direct heir to the crown. His father was King Milan and his birth was legalized by marriage of his mother with the late King after his divorce from Natalie.

In Constant Fear The Sultan is himself in constant fear of death by assassination and has redoubled the guards about the palace, and taken every precaution to protect his own life. He sees no one but trusted ministers and then with armed guard.

WILL HONOR THE AMERICAN FLEET

English Government Will Permit It to Anchor in Portsmouth Harbor.

London, June 30.—When the American squadron reaches Portsmouth it will not lie at Spithead, which is the usual place for foreign warships, but it will be brought into Portsmouth harbor itself. Never before has such an honor been paid to a squadron of a foreign power, for it places the foreign warships actually within the gates of one of the empire's chief ports.

DEATH LIST IS GROWING LARGER

One Hundred and Seventy Persons Lost Their Lives in an Accident.

Madrid, June 30.—At midnight 100 bodies had been extricated from the wreck of the Bilbao train, which was overturned Saturday night from a bridge in the Nejerilla river and it is estimated that seventy corpses remain in the wreckage. The bodies are badly mutilated. Differences between the civil and military authorities rendered the work of rescue more difficult. That many prosperous persons are among the victims is testified to by the great quantity of money and jewelry collected by the gendarmes.

CZAR PROMISED TO HELP JEWS

Pledged Himself That Kishineff Massacre Would Not Be Repeated.

London, June 30.—The lord mayor of London in an address said the Jews of this country desired for their brethren in Russia religious equality, and he believed he was right in saying that the czar was most anxious that the boon should be extended to his Hebrew subjects. The lord mayor concluded with asking the Jewish community to believe he had their interests at heart.

In this connection it has transpired that shortly after the Kishineff outbreak the Russian embassy conveyed a personal assurance to the lord mayor that if he would discountenance anti-Russian agitation in London he could depend not only that there would be no repetition of such attacks on the Jews, but that measures would be undertaken to generally improve their position in Russia.

FARMER CAUSES RUN ON BANK

Arriving in Martinsville, Ind., After Closing Hours, He Spreads Alarm.

Martinsville, Ind., June 30.—There was a run on the First National bank here, caused by an innocent depositor who came from the country to the bank after closing hours to make a deposit. Seeing the placard "closed" hanging against the glass inside the thought occurred to him that the bank had suspended and the report gained headway that could not be stopped. As a result there was a run of an hour and a half. A number of the heaviest depositors among the business men were present during the run and made large deposits. This soon assured the shaly depositors that there was no reason for the uneasiness and the run ceased.

Louis Gallert, aged 16 years, son of Rhinehart Gallert, a farmer near Marinette, dropped dead on Saturday.

SOLDIERS KILL FIVE PEASANTS

Troops at Koprenutz Croatia Are Compelled to Fire on the Mob.

Vienna, June 30.—One thousand peasants at Koprenitz, Croatia, where Friday's disturbances took place, on Saturday attacked the troops quartered there. The soldiers fired on the mob, killing five persons and wounding several others. Many persons were arrested. A battalion of infantry has been sent hither. So many arrests have been made at Warsadin, where disturbances also occurred, that the prisons are full and stables are used as jails.

LOST CHILD IS FOUND ON THE WEST SIDE IN CHICAGO

Was Picked up by a Woman Who Said She Thought Child Had Been Ill-Treated.

(Special by Scripps-McLae.) Chicago, June 30.—Alice Furlong, the two year old child for whom thousands have been searching this morning in a house on the west side where she had been detained by Hazel Avery, who said she picked her up on the streets and kept her, thinking she had been ill-treated.

TWO HUNDRED MEN ARE IN A BURNING MINE IN WYOMING

Explosion Sets Fire to Manna Coal Mines—Two Hundred Miners Are Inside the Works.

(Special by Scripps-McLae.) Cheyenne, Wyo., June 30.—A terrible explosion in the Manna coal mines occurred this morning at eleven o'clock. The mines are now on fire and the force of men fighting the flames have been able to make no impression upon them. Two hundred miners are inside the mine. None have come to the surface.

MINISTER ELOPES WITH PRETTY GIRL

Mortgages Farm and Leaves Wife and Eight Little Ones in Oklahoma Territory.

Guthrie, Ok., June 30.—Rev. O. K. Posey, father of eighteen children, has eloped from Cook, in eastern Pottawatomie county, with Miss Josephine Shelton, the pretty 18-year-old daughter of a neighboring farmer. He left a mortgaged farm and an estimable wife and eight children at home. Of his other children, eight are living in other states and two have died.

The departure of the preacher, who is 50 years old, was kept quiet for several days pending attempts to locate the pair. Both families are prominent. The couple took the money secured from mortgaging the farm and drove overland to Holdenville, I. T., at which place they mysteriously disappeared.

The preacher wrote to his wife telling where he had left the buggy, but was silent on the matter of his intended location. In Holdenville he introduced the girl as his daughter and announced they were en route to Denison, Tex. It is believed they went to Canada.

In addition to being the minister of the Christian church, Posey was also a practicing physician.

SMALLPOX AFFLICTS A GROOM

Panic Among Guests Follows Announcement of Husband's Illness.

Rochester, N. Y., June 30.—The village of Scottsburg in Livingston county is under strict quarantine, as smallpox has broken out there, and the entire community has been exposed. Shepard G. Trexler, a bridegroom, was feeling ill, but as the guests and clergyman had attended, the marriage took place. When Dr. Johnson said Trexler had smallpox a panic ensued.

STATE NOTES

The new dynamite manufacturing plant near Ashland is to be located just beyond Nash, near the head of the bay.

John Kaiser, aged 70, a pioneer of the Lake Superior copper district fell beneath a moving train at Gay and succumbed to injuries.

At a meeting of the aldermen at Lancaster seven applications were made for license to operate saloons, but only six were granted.

Edward Myers, the stranger who robbed C. Heck, his employer, of \$50, in Racine, has confessed and was held in the municipal court.

Six men employed in the Armour company plant in Racine quit work because the manager refused to discharge David Lewis, one of the over-seers.

The twelfth annual commencement of the Plainfield high school was held in the opera house. Ethel Scott, Alice Sherman and Rose Abbott were the graduates.

Assessor Charles Orth has completed his work at Kenosha, showing a valuation of a little over \$13,000,000 an increase of \$1,000,000 over the figures of last year.

Agents of Chicago commission houses who have made a tour of the strawberry belts north and south of Racine say that there will not be over half a crop of berries this year.

Sergeant Frank L. Shuman of La Crosse of Company M won the medal donated by Congressman John J. Each for the best shot in the company.

COTTON BREAK DOES NOT COME

Corner in the Commodity Still Continues, and Prices Dropped Thirty Cents.

THEN COMES RISE

Leaders Send Supporting Orders, and a General Panic Is Narrowly Averted.

(Special by Scripps-McLae.) New York, June 30.—There was a determined effort to break the great corner on cotton made last night at the closing. It was unsuccessful and while prices dropped thirty to fifty points below the closing of \$12.98 they rapidly rallied.

Most Sensational The drop was most sensational but the rallying by the leaders of the corners was as much so and prices went up with a bound. The expected shortage of the market, based upon the government report, is responsible for the changes.

Close Corners Reports from London and Liverpool markets show that it is seriously affected there and that mills will close unless a larger supply is obtained than is at present looked for from the south this year.

PLAN ATTACK ON A REBEL CITY

Vice President of Venezuela Leads a Big Army Against Bolivar.

Caracas, Venezuela, June 30.—Vice President Gomez embarked today at La Guayra with 3,500 men to attack Ciudad Bolivar, the only city still in possession of the revolutionists, where there are 2,500 men, commanded by Gen. Arango, who will meet Gen. Gomez at Barrancas, and the joint forces will attack Ciudad Bolivar in front and rear. This is the first time in Venezuelan military annals that such a number of troops has been transported.

STATE CONTROLLER SHOT IN TEXAS STATE HOUSE TODAY

Discharged Clerk Kills Controller Love Because He Has Lost His Place.

(Special by Scripps-McLae.) Austin, Texas, June 30.—State Controller Love was shot and killed in his office in the state house this morning by W. J. Hill, a discharged employe. Hill then went to his home where he killed himself. The shooting followed the refusal of Love to give Hill a place in the office.

DEMENTED NEGRO ESCAPES MOB

Lemont Regulators Severely Beat Victim, Who Makes His Escape.

Joliet, Ill., June 30.—Joe Johnson, a demented colored man of this city, was tried in the county court and ordered sent to Kankakee. Last Friday night Johnson went into the home of Mrs. Frank Zolecki, near Lemont. The neighborhood was aroused and a mob of men and women chased Johnson, intent on lynching him. He took refuge in a tree, but revolvers were fired among the branches and he was dislodged. He was clubbed and beaten, but made a fight and managed to escape. He was found exhausted next morning on a farm and hurried to Joliet for safe-keeping.

CHIEF WILKIE STARTS ON TRIP

Head of Secret Service to Visit Big Cities of Europe.

Washington, June 30.—Chief John E. Wilkie of the secret service has left for a three months' tour abroad. He is accompanied by his son Donald, who has just finished a preparatory school course at the Abington Friends' school and expects to enter one of the prominent technical schools, possibly the scientific school at Yale, next fall. Chief Wilkie will visit the principal cities of Europe.

STORK PLANS VISIT TO CHIQUITA

Smallest Woman in the World Will Retire for a Time.

Springfield, Ill., June 30.—A stork is about to visit Chiquita, the smallest normally developed woman in the world. She tripped on the grass at the carnival, and her physician advised her to forgo the ordeal of receiving the public, or else risk grave consequences. Subsequently her husband, who, two years ago, eloped with her from the exposition, letting her down from the third story of a hotel to the ground in a common pillow slip, announced that she would no longer pose before the public until the stork came. Physicians recognize the incident as one of the most remarkable on record. Chiquita is 24 inches high, weighs 28 pounds, and is 28 years old. As a baby she was only five inches in height and her cradle was a cigar box.

WORLD'S LARGEST ROSE GARDEN

FIFTY THOUSAND ROSE TREES, COVERING FOUR ACRES.

BEAUTY SPOT OF CONTINENT

The St. Louis Fair Will Have the Most Novel Feat Ever Before Attempted.

A million roses will bloom at once in the vast rose garden at the World's Fair. That is guessing, of course, but the foundation of the guess is this: Four acres are set to strong and vigorous rose trees. Thirty of the largest exhibitors have sent their choicest stock, and each will strive for first place in the judgment jury of the people.

This vast rose garden, with its 50,000 trees lies east of the great palace of agriculture. The warm eastern slope has been made more fertile than your garden or mine with rich compost and it will be a sight worth traveling far to see when the glorious colors make bright the beds and fragrance spreads far beyond the boundaries that now have been set.

This rose garden, the planting of which was begun early in April, occupies one of the conspicuous sites of the City of Knowledge. The center of the garden is at the main entrance to the Palace of Agriculture, a grand structure 1,500 feet long and 500 feet deep. It is on a high elevation overlooking the group of main buildings of the Exposition, and looking to the northeast a splendid view of one of St. Louis' most attractive residence districts is spread out before the eye.

When the graders finished their work and turned the site over to the gardeners, every vestige of soil had been removed, and a broad expanse of sticky, yellow clay remained. Surely to the layman a most unfavorable location for a flower garden. But to the practical rose grower it was an ideal spot. The ground was flattened with a series of eight collections forming a great oval, 150 feet long, and 100 feet wide as the central picture. In the center of this oval is erected a statue of the goddess of flowers, in heroic size. Flanking this oval on the north and south, are two great collections, triangular in form. Scores of other collections laid out in plots of ground in various shapes, but all conforming with the general harmony of the main picture, have been provided.

Each collection, while separate and distinct in itself, forms a part of a great and artistic whole and a belt of beautiful green lawn, from four to eight feet wide, surrounds each collection. Spacious gravel walks are provided throughout the entire four acres of roses, and at various intersections beautiful fountains, sending up streams of crystal water and cooling the atmosphere, are to be met. Seats to accommodate thousands of visitors have been provided and the seats are so distributed as not to interfere with the free passage through the gardens of the countless thousands who will revel in the glorious sight.

The work of planting the 50,000 roses already growing in this mammoth garden, the largest of its kind ever conceived, occupies the time of scores of expert gardeners and hosts of laborers. For each collection, excavations 18 inches deep, of the form and size required for the collection were dug in the sticky clay soil. Then the excavations were filled in with rich top soil and sandy loam. A dressing of fertilizer, of the kind best adapted to the requirements of the particular rose collection, is spread and then came the work of putting the young plants in their magnificently conceived new home. With the young plant firmly placed in its perfectly prepared bed, come April showers. The water percolated through the rich soil and was absorbed in the sandy loam. The strong and healthy young bushes sent their vigorous roots down through the soft earth and found secure lodgment in the clay that forms the foundation. Then no matter how hard the wind blew, the were not disturbed.

While the roots were developing, unseen, under the ground, there was evidence of their power in the vigorous growth above ground. The young shoots, anxious for their freedom after the winter's captivity in the cramped cold frames and the packages in which they were shipped, grew by leaps and bounds. Springing up from the ground, the pink shoots were at first almost transparent, so delicate they were. Then they became browned by the sun and exposure and soon the little buds appeared and under the ministrations of the watchful gardeners, and the in fluence of the warm April sun, the young plants were allowed to bloom, but not sufficiently to tax too greatly the energy of the plant.

Expansion was what the gardeners wanted mostly, and the wood growth of the rose tree is demanded this year, more than the blossom.

Most of the 50,000 roses are now planted, and are of the hardy and semi-hardy varieties, but many of the varieties that are not supposed to stand the rigors of a St. Louis winter are among the specimens shown in the mammoth World's Fair garden. All during the summer months and until the snow flies next fall, the rose trees will continue increasing in size strength and beauty. Then will the gardeners take precautions to prevent the frost from interfering with the beautiful picture provided for visitors to the City of Knowledge. The entire four acres will be heavily mulched. Manure, straw and litter will be packed about the roots of each individual plant, and a top layer of straw will cover the beautiful rose garden in the winter as the waters cover the sea and the snow covers the ground. Then no matter how low the temperature

may drop, or how strong the storm may blow, the spring of 1904 will witness the awakening of the greatest and most artistic exhibit of choice roses ever collected.

The planting of this mammoth rose garden was done under the personal supervision of Joseph H. Haddock, who under Frederic W. Taylor, chief of agriculture, has charge of this out door exhibit.

GREAT EARNINGS WITH TOBACCO

American Tobacco Company Has Declared Its Annual Dividends This Quarter.

The increase made in the American Tobacco company's common dividend in March, putting the stock on a twelve per cent basis is being maintained, the second quarterly dividend of three per cent, on the common stock having been declared.

Greater Earnings. In connection with the payment of this liberal dividend rate it can be stated upon official authority that the business and earnings of the company so far this year has been materially in excess of the corresponding period in the year 1932, and in the opinion of the officers of the company the financial result of 1933 will run considerably ahead of 1932.

As the Consolidated Tobacco Co., owns practically all the common stock, having acquired it through exchange of its 4 per cent bonds, it receives practically all the dividends now paid on American Tobacco common stock.

All Branches Active. While the business of the American Tobacco company is principally the manufacture of cigarettes and smoking tobacco the activity in other branches of the tobacco industry is equally large.

This fact demonstrated by the business of the Continental Tobacco Co., an allied concern, which manufactures chiefly chewing tobacco and the American Cigar Co., which is controlled jointly by the American and Continental companies.

The great prosperity throughout the company has caused a heavy demand for the higher grades of tobacco. It is pointed out that in good times there is an increased demand for the best grades, while in times of depression the business in lower grades generally shows a marked increase.

MILEAGE PROBLEM BEING DISCUSSED

Another Effort Is Being Made by the Western Passenger Association.

Undeterred by the threat of the Rock Island to sever its connection with all the western passenger bureaus and declare war, its competitors in the Western Passenger association are determined to adopt the proposed 2,000-mile interchangeable refund ticket, good on trains, in place of present credential mileage book, which requires the purchase of tickets by holders at ticket offices before boarding a train.

To make the medicine a little more palatable to the Rock Island, and with a view to preventing open hostilities, the action taken last Friday was so modified yesterday at a conference of the general passenger agents of the principal western roads in Chicago as to permit any road, if it so selects, to use either form of ticket. The resolution adopted on Friday made the use of the new ticket obligatory. At yesterday's meeting a plan was agreed on, the salient points being as follows:

The introduction of a western interchangeable 2,000-mile ticket, good on trains, to be sold at \$50 with refund of \$19.50.

These tickets will be valid on roads which discontinue use of individual 2,000-mile refund tickets, and which discontinue the sale of mileage credentials.

As all the prominent western roads voted in favor of the new ticket at the previous meeting, the Rock Island alone will use the mileage credential book.

That road's next step will probably be a notice of withdrawal from the mileage and credentialed business. It has already withdrawn from the Western Passenger association and the Western Immigrants bureau.

DOINGS AT THE RAILWAY CENTER

Persons of Employees in the Local Yards and Along the Line.

It is announced at Chicago, that the new La Salle street station is to be opened July 12. It is the understanding that all passenger trains of the Lake Shore and Michigan Southern, of the Chicago, Rock Island and Pacific and of the Nickel Plate lines arriving and departing from Chicago after midnight of July 11, will use the new station.

W. B. Wood has been appointed superintendent of the Panhandle's Richmond division, succeeding Otto Schroll, who has been made superintendent of the Toledo division. Superintendent Wood has been in railroad service on the Northwestern system as engineer of maintenance of way. He is a son of Vice President Wood of Pennsylvania company.

A complaint has been filed with the interstate commerce commission by the Cannon Falls Farmer Elevator company against the Chicago Great Western and Chicago, Milwaukee & St. Paul railroads regarding rates on grain from Cannon Falls to Chicago. It is alleged in the complaint that complainants are shut out by these rates from competing in the rye market at Louisville, Ky.

The Duluth & Iron Range has made a voluntary reduction on rates on general merchandise to all stations on its line, in accordance with the order of the Minnesota railroad and warehouse commission, to take effect tomorrow.

Among the important systems which have laid tracks on important extensions this year are the St. Louis & San Francisco, 205 miles; Santa Fe, 120 miles; Milwaukee road, 88 miles, and the Missouri & Pacific, 75 miles.

A call has been issued for the next regular meeting of the Western Passenger association to be held at Mackinac Island, July 13. A long list of subjects, mostly relating to rules governing excursion and special party rates, is on the docket.

Colonization agents of western roads were in session yesterday at Chicago, the meeting having been called for the special purpose of discussing the action to be taken to induce settlement of immigrants in western territory.

Officials of the Canadian Pacific assert that there is no foundation for the report that there is now on or impending a rate war between the lines of that system and the Grand Trunk.

The Omaha road has secured six new engines for use on its fast mail and limited trains. They are of a prairie type and weigh 320,000 pounds.

It is expected that the Duluth, Mesabe & Northern road will follow the action of the Duluth & Iron Range in reducing rates.

Figures being compiled show that in thirty-eight states and territories 175 lines have laid 2,221 miles of track from January 1 to June 30.

Conductor Keeler of the North-Western line is off duty for a few days.

E. G. Wittner, C. & N. W. conductor, has returned to his run after a short absence.

Fireman Dunham of the North-Western has gone to Chicago for a few days.

The North-Western line has begun work on a double track between this city and Evansville.

JACKMAN IN MILWAUKEE

Sentinel Reporter Tells of the Optimism of the Janesville Man.

C. S. Jackman, the Janesville banker, says the Milwaukee Sentinel was here long enough to express perfect satisfaction with the financial and agricultural outlook, and to express the hope that a summer sun and the snows of the following winter would so bleach out state politics that in the spring of 1934 the republicans of Wisconsin would be able to adopt the words of Henry Clay: "Awake, arise! Shake off the dew, drops that glisten on thy garments, and march once more to battle and to victory."

WHEAT CROP IS SAID TO BE SAFE

GRAIN BUYERS CLAIM RAINS IN NORTHWEST A GOOD SEND

PRICES WILL NOW GO DOWN

Record Yield Is Expected in Kansas, Notwithstanding the Bad Floods.

Rainfall since Sunday in Minnesota and South Dakota and parts of North Dakota, followed by the prediction of the weather bureau last night for more rain in these states, have insured the safety of the wheat crop of the northwest, according to grain experts. The rain has broken a drought that has threatened the existence of even a partial harvest of wheat and that caused an advance on the Chicago board of 7 1/2 cents in the price of the grain since June 1. Yesterday the favorable news from the northwest caused a decline of 1 to 2 cents in wheat, and a further decline is looked for today.

It is very agreeable news to grain buyers. Rain has been greatly needed in the northwest, and the continuance of it tomorrow over any extended area will be sure to cause a decline in the price of wheat. It is not believed there is any good foundation for the stories that the crops have been injured beyond the possibility of benefit by the rain; they are not likely at this stage of their growth to be seriously affected by the drought that has existed.

Says Crop Is Safe. It is believed the news justifies in believing that the crops have been assured. The rains that have already fallen are enough to warrant the opinion that there will be no serious deficiency in the harvests. With more rain there need be no apprehension. Telegrams report that an inch and a half of rain fell north of Huron, N. D. The rainfall appears to have been heavy, at least in some localities.

Dispatches from St. Paul and other centers of the wheat growing belt, express rejoicing over the breaking of the drought. The value of the rainfall, it is said, will be almost inestimable. Crops were suffering and ruin was possible. Not too far gone, however, to respond to generous rain, they will flourish, and unforeseen calamities occur. It seems certain that they will yield large harvests of first quality. Rain for the Red River Valley, which did not share in the downfall of yesterday and Sunday, was forecasted in the weather bureau's prediction last night.

Have Doubts. Adverse opinions with even the prospect of continued rain in the northwest did not seem an assurance of good wheat crops there. The damage done in the Dakotas and Minnesota is not likely to be repaired by rain. Reports from Pierre and other centers of the wheat country are to the effect that not more than half crops may be expected.

At the close of last week there had been an advance in wheat over the price June 1 of 7 1/2 cents at Chicago, 6 to 8 cents at Minneapolis and Duluth, 10 to 14 cents at St. Louis and from 7 cents upward at New York. The freeze in the southwest May 1 started the bad weather reports, that have also sent corn up 6 to 8 cents in the month. The closing prices of wheat yesterday on the Chicago Board of Trade were 79 3/4 cents for July, 78 1/2 cents for September and 77 1/2 cents for December.

Kansas Crops Flourish. Good weather is greatly aiding the development of the Kansas wheat crop. At Topeka, Kan., Secretary Coburn of the Kansas agricultural department made a report last night, in which he said:

"Reports from nearly every township in Kansas, based on conditions existing June 20, summarized, indicate that the area of winter wheat that will be harvested aggregates 5,709,485 acres, or 94.6 per cent of the area sown, and the general average condition of this on the eve of harvest is 89 per cent."

Continuing Secretary Coburn states that 90,000,000 bushels of wheat may be claimed for this year, against 55,000,000 bushels yield in 1932 and 90,000,000 bushels in 1931, the last named being the largest crop in the state's history.

WISCONSIN WEATHER FORECAST

Continued warm and generally fair Wednesday.

NEW BLOOD NEEDED

Our crews went east at a large expense and rowed against picked men from five other Universities. They came in third. Probably as much money was spent on their training and equipment as on any of the two winning crews. The material was as good to pick from at the University as in the east and the men just as strong and sturdy, yet why were they beaten and why did three of the members drop exhausted in the bottom of the boat at the end of the struggle? The Free Press has a theory. While not expressed in so many words, it really urges new blood in the coaching system and before long this will come. It must come if Wisconsin ever is to hope for victory. It is not so many years ago that Coach O'Dea left the University to go to Harvard to coach a crew there. He left in the middle of the college year and left Wisconsin without a coach. A senior, named McConville, who had rowed the previous year, gave up his college work, gave up his graduation, gave up his amateur standing and took hold of the work. This is the year, had it not been for a floating berry crate, Wisconsin would have won. He instilled new blood into the crew, and new ideas. Meanwhile O'Dea had become dissatisfied with Harvard, or Harvard with O'Dea and he signified his desire to return to Wisconsin. The athletic council took him back. Turned McConville out, and the old ideas, the old blood was allowed to continue its sluggish course in Wisconsin aquatic affairs. Thousands of dollars are expended each year to support this form of athletics and with the money expended better results should be obtained. The editorial from the Free Press follows to demonstrate the ideas of those who claim close touch with all athletic events:

"The average age of the winning Cornell crew in the eight-oared shell race at Poughkeepsie last Friday is 22 years. The average height is 6 feet, and the average weight 174 pounds. The average age of the Wisconsin crew is 22.6; average height 5.11 and average weight 171. The only difference that amounts to anything is that of an average of 2 1/2 pounds apiece in favor of the Cornell crew. Seven Cornell men are 6 feet or over, while four of the Wisconsin men reach that proportion. Still there is an average difference of but one eighth of an inch. Mere length does not count for much anyhow, and Cornell's stroke is but 5.9. He is the stoutest man in the two crews, Mather, Wisconsin, 6.2 is the tallest. Two crews will hardly be more evenly matched; and still these two were in different classes—or should have been. Georgetown, which won second averaged two years younger, about one half an inch taller and 13 1/2 pounds lighter than Wisconsin.

Now, what is the matter with Wisconsin? Nobody will dare suggest that the raw material is not all right. Why was it not pounded into shape to give those central New Yorkers something to do? Why did it not run the Georgetown youngsters out of the water? Why were the Badgers wilted and played out when the race was over?"

AMERICAN FLOUR

The popularity of American flour in China is attracting attention on both sides of the globe. The British consul general at Canton, in a report sent from China to London, and published in that city, states that the demand for flour among emigrants returned from the United States is so great that the quantity of flour imported in 1902 exceeded that of 1901 by 95,831,328 pounds, and was also some 70,400,000 pounds in excess of the average for the past five years.

These figures of increase in Chinese consumption of flour are justified by the figures of the Treasury Bureau of Statistics showing exports of flour to China and adjacent ports. Indeed, it is only when the shipments to the ports adjacent to China are considered that the rapidity of increase in exports of flour to that port of the world is realized. To China, alone, the exports of American flour have grown from 13,718 barrels in 1892 to 99,624 barrels in 1902. This increase of \$5,504 barrels is small, however, compared with the increase in the shipments to Hong Kong, from which point most of the flour there received is distributed to the various ports of China. The exports of American flour to Hongkong in 1892 were 450,690 barrels and in 1902 1,395,883 barrels, an increase of 941,201 barrels. To Russian China, the exports of American flour, which began in 1900, were 16,587 barrels, and in 1902, 50,140 barrels. To British China the flour exports were 375 barrels. Grouping the three statements of exports of flour from the United States to China, to Hongkong and to Russian and British China, the total for 1892 stands at 471,408 barrels, and for 1902, 1,549,032 barrels. This shows an increase of over 200 per cent in the exportation of American flour to China and to ports contributing to the consumption of China, while the total exportation of flour in the same years was, in 1892, 15,196,706 barrels, and in 1902, 17,759,293 barrels, an increase of about 15 per cent.

From the standpoint of dollars, it may be added that the value of American flour shipped to China grew from \$67,441 in 1892 to \$291,252 in 1902; to Hongkong, from \$2,140,071 in 1892 to \$4,164,593 in 1902, while the shipments to Russian China in 1902, were \$149,669, and to British China \$1,125 making the total value of all flour exported from the United States in the same period fell from \$75,362,253 in 1892 to \$65,661,974 in 1902.

President Roosevelt, our strenuous President has gone into summer quarters at Oyster Bay. In order to be away from his office and the worry and work he has stationed the executive in the town proper, and will probably do as much actual labor as he did all winter. He certainly earns his begrudging fifty thousand salary.

A recent press dispatch announces that Indiana is to have an interurban road which will run sleepers on their regular trains. This is printed as being the first electric road in the world to have sleepers attached. Evidently Philadelphia and its famous line of sleepers have been forgotten.

Now that the last legislature passed the Barbers bill, and it became a law why does not the governor appoint a few barbers who want a vacation to fill the positions it created. July 2 is the day mentioned for the first session of the barbers board and no board has yet been appointed.

This is good weather for some of the mongrel curs throughout the city to go mad and bite some one. Then maybe there will be licenses put on them and the snapping, snarling nuisances will be limited in number, at least.

Now comes Indiana and wants to have that vice-presidency all for its own. It is not satisfied with having had a president a few years ago, but wants an option on the office for time to come.

They are particular in Washington when they decide that the wives of office-holders must not engage in business when their husbands receive pay from Uncle Samuel.

The Hot Springs murderer who killed a companion in jail and then killed himself to avoid being lynched certainly cheated justice but met his doom.

Yesterday afternoon, the great cup challengers met and raced to see who was to defend the American cup that Sir Tommy has come over to lift and take back to drink his famous tea in.

Now that the Kaiser has pronounced the Kearsarge a magnificent ship it will hardly be proper that Von Reventlow call it anything else in the future.

It is to be hoped that they will not take Plymouth Rock to the St. Louis fair. Other people's rocks will be plenty for the greedy Missourians to see.

Another section of the country has been flood swept. This time it is in West Virginia and a district ten miles square was swept away.

If a man can eat seven pounds of beefsteak for breakfast there is some hope for his living until after lunch at least.

Now is the time that the college graduate of a week ago is learning that he is not half as big as he was before he graduated.

From the accepted lover of a society belle to a prisoner in a stuffy police station is pretty hard lines even for a clever hotel thief.

It must have seemed natural for Admiral Colton, an ex-Milwaukee citizen to attend a beer party at Kiel.

King Peter took his oath of office and the population of Belgrade went as wild as they did when the old King Alexander was killed.

The army is now under a new staff system and the navy is to be treated to a like dose.

It is considered a mighty dull day these weeks, when only one negro is lynched.

Ducked horses are having a time these days when the flies bite at all.

Another feud started in Kentucky.

PRESS COMMENT

Wisconsin State Journal: Returns are coming in. The assets of one bankrupt Texas oil company are eighteen mules.

Marquette Eagle: Nature is looking her loveliest now, if you are accompanied on one of your rambles with the one you love best.

Denver Republican: Incidentally, if you see a boy with a toy pistol, take it away and give him a real revolver. It is less dangerous.

Oshkosh Times: Judge Parker is going to deliver an address before the Georgia Bar Association. Now, what do you suppose that signifies?

Green Bay Gazette: Whitelaw Reid says the Monroe doctrine is "not necessary." Possibly not, but Uncle Sam proposes to keep it with in handy reach just the same.

Milwaukee Sentinel: William Zimmerman attempted to loop the loop or roller skates at Indianapolis last Monday. The fool killer was present.

Washington Star: Philadelphians are justified in insisting that the question of pure water is even more important than the cartooning of great men.

Boston Herald: A fire on the hearth and some artificial light from the chandelier help to dispel the prevailing chill and darkness incident to the opening of the astronomical summer.

Minneapolis Journal: A dear little kindergarten, pupil, not teacher, made a distinct impression by her answer to the question, "Who was George Washington?" She said he was "first in war, second in peace, and third in the hearts of his countrymen."

Milwaukee News: When Senator Hanna declares that he wouldn't accept the nomination for the vice presidency, his declaration is to be accepted as sincere. He had opportunity to organize a formidable "boom" for himself for first place on the ticket, and permitted it to pass. It is unlikely, then, that he would consent to serve as tall to the Roosevelt kite. The field remains open to the ambitious statesmen that are desirous of having their names go down to posterity linked with the apostle of the strenuous life's eternal fame.

TO FORECLOSE \$30,000 BONDS

W. D. GRAY SUES BADGER STATE
TELEPHONE COMPANY.

TRIED IN THE CIRCUIT COURT

Judge Dunwiddie Hears Foreclosure
Case—Other Findings Filed in
the Circuit Court.

In the circuit court chambers today the suit brought by W. D. Gray against the Badger State Long Distance Telephone company and Geo. L. Pullen as trustee has been on trial before Judge Dunwiddie. The action is brought for the foreclosure of the bonds against the company, on the grounds that the defendant, the Badger State Long Distance Telephone company, has failed to comply with the terms under which the bonds were issued by failing to pay the semi-annual interest.

The court chambers were well filled with prominent members of the telephone company, and with the attorneys in the action, most of them are members of Milwaukee firms.

Bonds to the value of thirty thousand dollars are involved in the action. Judge Dunwiddie filed his findings in the suit of George Baccash against George Phillips. The judgment was reversed and the defendant is to have costs.

In the suit brought by Grace Light-hizer against H. L. Williams the judge decided that the plaintiff should recover twenty-five dollars with interest and costs. The action was for the recovery of money paid for tuition and supplies in the business college.

Y. A. C. A. PLANS A CAMP FOR MEMBERS

They Will Go to Delavan Lake About
the 11th of August, for
Ten Days.

The camp for the Junior department boys at the Y. M. C. A. will begin August 11th. Immediately following the Assembly at Lake Delavan, where the boys will pitch their tents.

Junior Convention

A few of the Junior department boys are being selected to attend the state convention of Juniors to be held at Phantom Lake, 12 miles south of Waukesha, from July fifteenth to twentieth, inclusive. Boys from every association in the state will come as delegates to this convention. During the meetings all kinds of work among boys will be presented, including social, intellectual, physical and spiritual. Members of the Junior departments are expected to return home from this gathering, with the knowledge and ability to become leaders among the boys in their community. Between forty and sixty boys are expected to be present at this convention. Everything will be done to make the recreative features of interest to all. Some of the best men, experienced in association work in the state will be present to help carry out the program.

Leave Names
If any young men members of the local Y. M. C. A. who desire a week or ten days' outing will leave their names with the general secretary at his office, when fifteen or more names have been received, provisions will be made for a camp at Delavan lake.

The cement sidewalk on both sides of the association building will soon be finished. This will add to the appearance of the structure as the space from the sidewalk to the curb will be terraced.

Arrived Safely: Letters have been received from Miss Williams announcing that the party, consisting of Captain and Mrs. Vankirk and Dr. Frank Vankirk and Mrs. Williams, arrived safely in Queenstown on the 19th after a most pleasant voyage.

Special Services: On Wednesday evening there will be special services at the Salvation Army headquarters, Major Glenn and Captain and Mrs. Hilburn of Milwaukee coming to conduct the services.

Chose a President: Rev. Henderson has just returned from Poyette where he went to attend the annual meeting of the board of trustees of Poyette academy. The meeting was important inasmuch as the academy elected a new president in the person of Rev. Fifth, a graduate of the Christian Theological seminary.

PLEASANT TRIP LAST EVENING

Dr. Richards' Class Spent the Time
in a Most Enjoyable Manner.

Last evening Dr. F. T. Richards' S. S. class of young men of the 1st M. E. church varied their regular monthly social evening program by giving an open air ride and picnic supper. Mr. Chas. Ward, who was chairman for the evening, met the young men at the corner of Milwaukee and Main streets at 6:15 p. m., with omnibuses. Others were met and taken aboard as the ride proceeded, until a jolly party of 46 were en route to the spot selected, on the river bank about 3 miles from the city. The first thing enjoyed was a good swim. The first one of the season for about fifteen of the party. At eight o'clock the call was given by the supper committee. All sat down on the grass and partook of a bountiful supper, supplemented by frequent calls on the ice cream freezer and lemonade jars. A large campfire was then built and in its cheerful light an hour was spent in good fellowship, sandwiched in with mandolin music, amusing songs and speeches. The ride home became one of the merriest parts of the evening's enjoyment. The only regrets of the evening were over the illness of the pastor, Rev. W. W. Warner, which prevented him from being present.

INSANE MAN IS SLEEPLESS

Troubled by Delusions, He Refuses
to Sleep Night or Day in Lockup.
Since Saturday night an insane man has been confined in the lock-up in the city hall, and during that time he has not closed his eyes in sleep. He has been the victim of constant hallucinations and was adjudged insane by Drs. Buckmaster and Joe Whiting who examined him. Judge Sale will probably order him to be taken to Mendota as recommended by the physicians.

NEWS OF A PERSONAL NATURE

Ex-Supt. D. D. Mayne was in the city today on business connected with the teachers' institute which will open here Monday.

Supt. H. S. Youkers of Grand Rapids examined the manual training department of the high school today with a view to securing information which will aid in establishing a similar course of work in the Grand Rapids schools this summer. Mr. Youkers was originally to have been one of the institute conductors in this city, but was obliged to give up the work.

Plans are being made by some young people to attend a dance at Haggart's at Shoplery Friday night. Miss Belle Stoddard has returned from Merritt's cottage above the four-mile-bridge, where she has been with a camping party for a week past.

The Street assault and battery case is on trial in the municipal court.

Lon Kemmerer today entered upon the first of twelve days which he is to spend in the county jail for drunkenness.

GOOD SHOWING FOR THE COUNTY

FIRST DISTRICT OF ROCK HAS
PROGRESSIVE TEACHERS.

ATTEND WHITEWATER SCHOOL

Summer Session of Normal Takes
Place of Review School Planned for Janesville.

That Rock county teachers are bent upon increasing their efficiency and raising the standard of the district schools is apparent from the magnificent showing made at the summer session of the Whitewater Normal school which opened at Whitewater yesterday.

Supt. Hemingway, who was present at the opening of the session, brings back word that about one-half of the attendance is made up from teachers and those who intend to teach next fall in the first district of Rock county.

Although nominally a summer session of the normal school, the course of instruction now in progress is practically identical with the summer review school which was originally planned to be held in this city, within the coming week. The courses are similar, being planned to prevent teachers from becoming rusty or out of touch with the latest developments in pedagogical lines.

The school will continue its sessions until July 31, and the list of entries from Rock county is expected to increase materially before the close of that period.

NOVEL BIRTHDAY PARTY WAS GIVEN

Edith Tall and Effie Cowan Celebrate
Their Natal Day Together.

Yesterday being the birthday of the Misses Edith Tall and Effie Cowan, their Sunday school teacher, Mrs. Dr. F. T. Richards, gave a class party last evening at her home in their honor. The home was beautifully decorated with flowers, especially the banquet table, it being tastefully entwined with woodbine vines with a pyramid in the center of white daisies. A large number of young ladies were present and spent the evening in social merrymaking. Each guest received a telegram from the hostess, summoning them to refreshment. All too soon came the hour for departure and as they separated for their various homes, uppermost in their minds was the thought of the old song, "Blest be the tie that binds our hearts in Christian love."

JOHN W. PETERS WILL NOT LEAVE

B. C. Fox Does Not Supersede Him
as Superintendent, But Is To Assume Business Management.

B. C. Fox, of Cincinnati, who has recently come to this city, to assume a position in connection with the management of the Cement Post Factory is not to act as superintendent in the place formerly occupied by John W. Peters. He will take the business management of the concern while Mr. Peters will continue to fill the place of superintendent, as he has from the time the plant began operations.

CHIEF KLEIN IS IN NEED OF MEN

THREE PAID AND NINE CALL MEN
NEEDED.

THEY WILL BE EXAMINED

An Examination Will Be Held on
July 7th To Fill the
Places.

Three paid and nine call men are needed to bring the city fire department up to a proper standard of efficiency, said Chief Klein in a report made to the board of police and fire commissioners. Accordingly an examination will be held on the evening of July seventh, at which time applicants will be given a hearing. Chief Klein will furnish the necessary printed forms to any who desire to take the examination at that time. Two more vacancies were made in the department by the acceptance of the resignation of H. J. Cullen and Thomas Abbott.

Con J. Murphy's appointment as second assistant chief of the fire department was confirmed.

The meeting of the board of commissioners held yesterday was called for the sake of taking necessary steps preliminary to holding the examinations. The date for the meeting was originally set for Saturday, and later postponed.

...Forty Years Ago...

Janesville Daily Gazette, Tuesday, June 30, 1863.—In the recent raid on Mayville, Ky., the rebels captured and paroled the chivalrous Captain Southland of the ram Queen of the West notoriety, while his better half—the secession widow of Mississippi, of whom our readers have already been told—waved her handkerchief for Jeff Davis and his horse-thieving followers.

Gen. Rosecrans has made a brilliant movement forward towards the rebel stronghold. His headquarters are at Manchester, thirty-five miles east of Tullahoma. It looks more like flanking Bragg than attacking him in his fortified position.

There is very little light today upon military movements in Pennsylvania and Maryland. It is thought by some that a battle is imminent at Harrisburg.

There has been a general onslaught upon Milroy for his defeat at Winchester, by military stay-at-home critics. It appears that his

7,000 troops were attacked by an overwhelming force of 40,000, that he fought bravely as long as there was hope and only erred in not retreating sooner.

The Chicago Journal says that on Monday, the 22nd inst., three federal prisoners escaped from Vicksburg. They reported that Pemberton was constructing small boats, several hundred of which were finished.

Philadelphia.—The excitement today is intense. Until a late hour tonight, the streets were crowded with an excited populace, eagerly inquiring for news and enlisting in defense of the city and state, at the navy yard, and most of the work shops of the city. Business is entirely suspended to allow men to drill.

A letter from the Thirteenth, dated the 24th, says that they are well. Col. Lyon is in command of Fort Donelson, Col. Lowe having been appointed to the command of a brigade of cavalry. A new corps has been organized in the army of the Cumberland called the reserve corps, under command of Gen. Granger.

Worry and Breakdown

The otherwise unaccountable disappearance of an estimable business man is laid to worry and over-strain connected with the work, says the New York Herald. Alas, there are too many to whom the lesson of his misfortune must appeal. It is the penalty of the struggle to exist in the fact of the many hindrances that beset the ambitious worker. The conditions are more to blame than the individual. Philosophically speaking, it seems easy enough to apply a rational remedy, but the real ability to give it a practical bearing is often wanting. The proof of this is seen in the thousands of nervous and mental wrecks that strew the path of the twentieth century progress. We may mitigate the effects of worry, but we cannot altogether banish its cause. The string that is constantly stretched will break in time. Many of the most hopeless cases of brain exhaustion come in the gradual way. Thus, the real injury is not appreciated until it is too late for remedy. The vital question is,

"What are you going to do about it?" The relief of the strain must come by some diversion of pursuit.

The nerve specialists tell us that this lies at the bottom of all remedial measures. Reaction means a change, but it is no half way business, as is the present fashion. There should be as much absorption of interest in one as the other. The trouble is that most of us make pleasure, so called, as much of toll as real work. The cheat becomes obvious enough in the long run, because there is no compensation of forces. The times demand lighter and more healthful amusements, and it is a good sign that golf, the saddle, polo and outdoor sports are becoming more and more popular and comic opera and light comedy are becoming more and more appreciated by the set. If we must have more worry, let us fight it with more play. With the latest unfortunate victim of breakdown, the dancing class was not enough. The best of all is that the most innocent amusements are always the most beneficial.

MONEY MARKET IS MUCH EASIER

New York Reports That Last Week Was a Good One for Trade.

Discussing the developments in the financial and commercial markets of the past week and their bearing on the prospect for the future, the Wall Street Journal today will say:

"Transactions in the stock exchange last week dwindled away to very low figures. The market showed greater dullness than at any time in many months. Such business as there was was confined to a small group of speculative stocks and these changes were very slight.

"The principal business in the railroad list was in Pennsylvania, in which 240,000 shares were done at a decline of about 2 1/2 points. The only other stocks with sales in excess of 100,000 shares were Reading, with about 190,000, and Atchafalaya, with 125,000. It is important to note that both Reading and Pennsylvania are half stocks, so that transactions in these are less than would appear. The average prices of twenty active stocks, which closed on June 20 at 102.25, declined to 101.70 on June 22, rallied to 102.18 on June 23 and declined slowly to 101.43 on June 26. A closed the week at 102.03. Among industrials the largest dealings were in United States Steel common, amounting to 87,000 shares, with a fractional decline. Colorado Fuel and Iron was active, ranging from 69 to 69 1/2 and closed the week at a moderate advance.

"The dullness is generally accounted for by the crop uncertainty, which is somewhat greater than usual at this year, owing to the unfavorable weather delaying the growth of grain. Speculation had largely gone into the produce markets, attracted by the possibilities of rapid movements. The only important feature of the week has been the payment for Pennsylvania new stock. Subscriptions were paid up in full to a very large extent, and it is reckoned that the Pennsylvania company has received a much larger proportion of the full amount than on previous subscriptions. Largely as a result of the speculative dullness in Wall Street the operation has been conducted without disturbance of money rates. This is somewhat remarkable in view of the close proximity of the July settlement.

"The course of railroad earnings continues satisfactory in a high degree. For the month of May twenty-four roads reporting to the Wall Street Journal show a gain in gross of 14.12 per cent, and a gain in net of 17.41 per cent. For eleven months of the current fiscal year these roads show a gain in gross of 8.76 per cent, and a gain in net of 3.22 per cent. Gross earnings reported weekly continue to exhibit satisfactory gains. Complete returns for the second week of June show a gain of 11.79 per cent., and for the

third week of June thirty-three roads show a gain of 14.10 per cent., the largest ratio of increase since the beginning of May.

"The money market has been distinctly easier with call loans averaging a little over 2 per cent. for the week. Time loan rates have also declined with considerable offerings of out-of-town money on terms carrying the borrower over the first of the year. Quite a good deal of money has been loaned into January at 5 per cent. The stagnation in stock exchange business has enabled the completion of important transactions without the slightest disturbance in money rates. Notwithstanding a considerable loss of cash by gold exports, the banks have made a gain on the week, due to a large movement from the interior. The net gain was about \$3,800,000 on all accounts. The bank statement showed an increase in loans of \$8,925,800, which was attributed to borrowing in order to make payments for the new Pennsylvania stock. The reserve required is \$3,485,125 more than last week and this deducted from the gain in cash makes the increase in surplus \$5,440,675. The surplus now is \$12,922,850, comparing with \$12,978,350 in 1902, \$8,484,200 in 1901 and \$16,559,375 in 1900. The surplus, not counting reserve against United States deposits, is \$222,230,425.

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives, or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant, aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Many of the ills from which women suffer are of a transient nature and do not come from any organic trouble and it is pleasant to know that they yield so promptly to the beneficial effects of Syrup of Figs, but when anything more than a laxative is needed it is best to consult the family physician and to avoid the old-time cathartics and loudly advertised nostrums of the present day. When one needs only to remove the strain, the torpor, the congestion, or similar ills, which attend upon a constipated condition of the system, use the true and gentle remedy—Syrup of Figs—and enjoy freedom from the depression, the aches and pains, colds and headaches, which are due to inactivity of the bowels.

Only those who buy the genuine Syrup of Figs can hope to get its beneficial effects and as a guarantee of the excellence of the remedy the full name of the company—California Fig Syrup Co.—is printed on the front of every package and without it any preparation offered as Syrup of Figs is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere at 50 cents per bottle.

\$500,000 IN PRIZES of \$5.00 each to be given to the School Children of America
School Children's Competitive Advertising Contest No. 514.

This sketch was made by Helen Homan, aged 10, Washington School, Quincy, Ill. We give a cash prize of \$5.00 for any drawing of this character which we accept and use. All school children can compete. Full instructions will be found on inside of each package of Egg-O-See, telling what to do to get the prize and how to make the drawings.

The difference between Egg-O-See and the ordinary flaked wheat food lies in the sanitary care used in its preparation, the selection of wheat and the purity of its flavoring. You can taste this difference.

Note—THE PRICE OF EGG-O-SEE IS 10 CENTS FOR A FULL SIZE PACKAGE, such as is usually sold for 15 cents. The largest food mill in the world, with the most approved labor saving machinery enables us to make the best flaked wheat food at this lower price.
